

18.09.2020

Dear all,

In the current situation due to the COVID pandemic, making plans for the upcoming year is not easy. Nevertheless, we have decided to announce the dates for 2020.

Dates for 2021: The period has been set to 11.2. (International Day of Women and Girls in Science!) – 27.3.2021. The registration procedure will be announced by the end of October. We are aware that there will be universities or laboratories where people cannot meet and participants will have to work from home. If you cannot bring students to your location, you might plan an online Masterclass. We are working on offering some options as well as special videoconferences for these cases. Please watch for more information on this as the situation develops.

World Wide Data Day: The date for World Wide Data Day (W2D2) has also been set: mark your calendars for Nov 12, 2020. Look for more information in the first regular IMC 2021 circular and in the updated website early in October.

Even though this time is still full of uncertainties, we are looking forward to working with you on International Masterclasses 2021.

Kind regards,
Uta + Ken
