

31.01.2020

Dear all,

Here is your weekly piece of information to prepare for your Masterclass:

////////// Social Media //////////

International Masterclasses are on Social Media. Our hashtag is #physicsIMC. Use it on our social media channels, Twitter or Instagram and communicate your Masterclass experience to your region and the world!

Here are some ways how you can benefit and help IMC to grow on social media:

- Use hashtag #physicsIMC for your tweets and posts.
- Tag our Twitter account (@physicsIMC).
- Tell the teachers who will come to your institution about our account and hashtag. Please encourage teachers and students to post before, during, and after the Masterclass. They should share impressions and post pictures.
- During your Masterclass, place our hashtag on a chalkboard or whiteboard where the students can see it and let them know that they can and should make some posts.
- Students can check our hashtag to see other students in Masterclasses worldwide.
- Follow our account on Twitter and let your colleagues and friends know we're online. We welcome, follow and retweet both institutional Twitter accounts (institutes, universities, funding agencies, etc.) and individual accounts.
- Check authorizations before putting someone's picture online, especially when that person is a minor.

////////// Reminder: Vidyo Tests and Orientation //////////

The Vidyo test period at CERN starts on Monday. Orientation and Vidyo tests for Fermilab connections are running in parallel. Please sign up for your test! More information at <http://cern.ch/go/WJ6h>

Kind regards,
Uta Bilow + Ken Cecire
