

14.12.2018

Dear all,

//////// Schedule for IMC19 //////////

The registration doodles for International Masterclasses 2019 have been closed. Based on your entries, we have created preliminary schedules. You can find the CERN schedule at <http://cern.ch/go/GzG9> and the Fermilab schedule at <http://tiny.cc/fnalvc2019>. Please check the schedule carefully and let us know if any corrections are needed. All entries represent fixed bookings – if you have registered, your place in the videoconference is reserved for your students.

Both schedules are still subject to updates, as we expect more institutes to join during the next weeks, given a maximum of 5 institutes in one video conference.

If you plan to join the programme and have not registered so far, you still can! Registration continues by e-mail, so please do not hesitate to contact us: Uta for CERN video conferences and Ken for Fermilab video conferences.

//////// Masterclasses on the UN International Day of Women and Girls in Science //////////

Planning for the 2019 edition of Masterclasses for girls on the International Day of Women and Girls in Science (IDWGS) is displayed at <http://cern.ch/go/XKs9>. Twelve groups have signed up so far. If you wish to participate but are not listed yet, please contact Uta.

//////// Best wishes //////////

We will suspend IMC Circulars for the holiday season and resume with weekly circulars starting 11.01.2019. Until then,

Kind regards,
Uta and Ken
