

04.03.2022

Dear all,

//////// Kick-off //////////

Last week Thursday was the official kick-off for this year's International Masterclasses. Fermilab as a moderation centre starts activities tomorrow. KEK with Belle II videoconferences and GSI with Particle Therapy Masterclass videoconferences will follow next week.

//////// Cancellations //////////

The Masterclass schedules were created from the registrations and can be checked at <https://physicsmasterclasses.org/index.php?cat=schedule>. We fully understand if you are unable to hold your Masterclass as planned due to unforeseen circumstances. If you need to cancel your Masterclass, please cancel early, which means at least one week in advance. This makes our work a little easier!

//////// Photos //////////

Our webpage could profit from some new, fresh images. Therefore, we kindly ask you to send us photos from your Masterclass event. They should be high resolution and we should have permission to use them publicly.

//////// Moderators //////////

A huge number of (mainly) young physicists have agreed to moderate Masterclass videoconferences. It's great to see so many scientists committed to the program. Moderators discuss their results with the students and have them poke holes in a Q&A session. At CERN, they conclude with an entertaining quiz. Meet "your" moderators at <http://cern.ch/go/Xx6q> for CERN and <http://tiny.cc/fnalmod22> for Fermilab. Names of moderators for the Particle Therapy Masterclasses are at <http://cern.ch/go/8pH8>.

Kind regards,

Uta + Ken
