

22.03.2019

Dear all,

Almost half-time for International Masterclasses! Until today, CERN has held 27 video conferences. 32 more still will come. At Fermilab, 9 linkups took place, 10 more to come.

////////// LINKS FOR VIDEO CONFERENCES //////////

You cannot find the link or room extension for your CERN video conference? One click <http://cern.ch/go/xFK6>, and it is there.

What about Fermilab? Go to <http://cern.ch/go/MTb9> for ATLAS and CMS masterclasses or <http://tiny.cc/mmcsked19> for MINERvA masterclasses, find your Indico page, and follow the videocon link.

////////// IMC FIRSTS //////////

Last week, Rochester NY and Syracuse NY in the U.S. held the first International Masterclasses with the MINERvA neutrino measurement, connecting to Fermilab for their video conference. It went very well and more MINERvA masterclasses are on the way in coming weeks. This week, Padua, Italy, Prague, Czech Republic, Strasbourg, France and Maribor, Slovenia are piloting the new Belle II masterclass with a video conference connecting to KEK in Japan!

Kind regards,
Uta + Ken
