

21.01.2022

Dear all,

//////// Moderators //////////

We are currently putting together the moderator teams for the videoconferences. As the program is expanding, we are looking for new volunteers. Moderations can be done remotely, so people don't have to be at CERN, Fermilab, KEK, or GSI. If you have colleagues who are interested, let us know!

//////// Resources for online Masterclasses //////////

We have a page with screencasts for ATLAS Z, CMS, and MINERvA Masterclasses at <http://tiny.cc/imc-vid>. The videos show students how to install the software and perform the analysis. These are to help students and teachers if you give your Masterclass online and students work on their own computers. More recommendations for online Masterclasses are at <http://cern.ch/go/7pQ9>.

//////// Media templates //////////

We provide several media templates for useful applications for your Masterclass, e.g. letter and flyer for invitation, announcement poster, slides (ppt) for your presentations, certificate of participation, and logos. These are available at <http://cern.ch/go/mj8H>. These are all designed to help you prepare and recognize the people in your Masterclass, whether by creating your announcement poster or by printing shirts with the IMC logo for your tutors. Additional materials are available in the QuarkNet masterclass library at <https://quarknet.org/content/classroom>. These include classroom preparatory activities, flyers, and posters (toward the bottom of the page).

Kind regards,
Uta + Ken
