

15.01.2021

Dear all,

**//////// Schedules for IMC 2021 //////////**

The registration doodles for International Masterclasses 2021 are closed now, but you can still register via email. Schedules will be published next week.

**//////// Resources for online Masterclasses //////////**

We have a page with screencasts for ATLAS Z, CMS, and MINERvA Masterclasses at <http://tiny.cc/imc-vid>. The videos show students how to install the software and perform the analysis. These are to help students and teachers if you give your Masterclass online. More recommendations for online Masterclasses are at <http://cern.ch/go/cv7p>.

**//////// Profile of your Institute //////////**

All participating institutes can have a page on the IMC website to present a portrait of the institute and its activities. Please check your webpage, which you will find in the left hand side menu entry of your country at <http://cern.ch/go/9rNI>. If you do not see one, let us know and we will help you to build a page. If there is one there, please inspect it thoroughly: check both the English and the local language version and please click every link! Send URLs or any information that needs to be updated!

**//////// Moderators //////////**

We are currently putting together the moderator teams for the videoconferences. As the program is expanding, we are looking for new volunteers. Moderations can be done remotely this year, so people don't have to be at CERN, Fermilab, KEK, or GSI. If you have colleagues who are interested, let us know!

Kind regards,  
Uta + Ken
