

25.05.2020

Dear all,

As you know, videoconferences for International Masterclasses came to a stop on 18<sup>th</sup> March due to the COVID-19 crisis. Since then, there has been movement to give students and teachers opportunities to engage in masterclass activities remotely. To round off these activities with an international experience, we offer videoconferences at the end of June.

**//////// Summer videoconferences //////////**

Videoconferences with moderators from CERN, Fermilab or others places are planned for June 26 and 27 (Fri + Sat). Students, who have done a Masterclass measurement, can participate in these videoconferences. Please consider with your colleagues at your institute whether you would like to offer an online Masterclass in the coming weeks. We offer 2 days with various slots for videoconferences and will try to accommodate every single request. These videoconferences will follow more or less the usual IMC agenda (combination and discussion of results, Q&A).

If you would like to offer this activity to high school students and have decided to run a remote Masterclass in the coming weeks, please register for the videoconference here:

<https://forms.gle/kkSHCkRgP7QQkcg8> (deadline: June 5).

Kind regards,  
Uta Bilow + Ken Cecire
